A slight mistake was made by the proprietors of the "large Clothing Warehouse" in their last proclamation, which was that the Turk is being "rapidly used up" in Europe. Unfortunately for their argument, directly the reverse is the fact, for in Europe, as well as in places neare home, two foolish follows are shaking the bush while Turk is catching the bird; and so long as our worthy friends are under the necessity of imitating an even to the copying of our advertisements, almost verbatim, (though at be for a piace so far off as Ogdonsburgh, N.
